Welcome from the SCDTP Director

Professor Athina Vlachantoni

The SCDTP Final Year Conference is a highlight in our calendar. This conference is organised by our students for our students. It is an opportunity for our finalists from all partner Universities to share their exciting research across a wide range of Social Science disciplines. It is also an opportunity for all students, fellows and staff to engage with each other, and to build relationships that can last a lifetime.

Thank you to the Organising Committee and the SCDTP colleagues for all their work, and to all PhD supervisors for their continued support. I hope everyone has an inspiring day.

Keynote Speaker

Dr Jacqueline Priego Hernandez

Jacqueline is a social psychologist whose expertise lies at the intersection between education and healthcare interventions for the psychosocial wellbeing of youth and socially excluded communities. She is a chartered member and associate fellow of the British Psychological Society, and a senior fellow of the Higher Education Academy. Jacqueline is the interim Associate Dean (Global Engagement) in the Faculty of Humanities and Social Sciences, University of Portsmouth.

Keynote Speaker

Dr Zahra Murad

Zahra is a senior lecturer at the Economics and Finance Subject Group in the Faculty of Business and Law. She joined the University of Portsmouth in December 2017. Zahra's research is on behavioural and experimental economics. She conducts laboratory, online and field experiments to study economic decision making. Her research lies on the crossroads of economics, management, political science and social psychology.

Zahra co-founded Portsmouth Economics Experiments Research Lab (PEER) with Wolfgang Luan, which investigates important economic issues such as incentives, motivation, productivity, and cooperation.

Completing her BSc and MSc at Bilkent University in Turkey, Zahra completed her PhD at the University of Nottingham. She was a part of CeDEx, one of the first and most active behavioural research groups in the UK. Zahra worked as a research fellow at the University of Surrey for the project "Delivering Better For Less: Improving Productivity and Motivation in Public Sector". She has taught undergraduate and postgraduate level modules at Surrey, including Game Theory and MSc Microeconomics.

Sarthak is currently pursuing a Ph.D. in Reinforcement Learning and Credit Risk. He holds a B.Sc. in Finance from NMIMS, India, an International Masters in FinTech from Politecnico Di Milano, Italy, and an M.Sc. in Business Analytics and Finance from the University of Southampton. His work primarily focuses on applying advanced analytical techniques to the fields of finance and credit risk management.

Patricia Ncube

University of Portsmouth

Citizenship, Governance and Security

I am a researcher who specialises in Equality, Diversity and Inclusion with special interest in race and gender. My research looks into the experiences of African migrant women in Britain and how different intersectionalities such as race, gender, education level, immigration status, marital and parental status impact their lives. Outside of my research, I work for the charity Stop Domestic Abuse as a lead navigator on minoritised communities. I develop relevant initiatives, workshops and training packages for both internal and external stakeholders. I am passionate about travel and am on a quest to visit every country in Southern Africa .

Organising Committee

Robin Skyer

University of Southampton

Population Change, Health and Wellbeing

Robin's research centres around trans* care and queer futurities, internet cultures, activism, young people and social justice. They completed their BSc (Hons) in Politics and Philosophy at the London School of Economics and Political Science (LSE), and their MSc in Social Research at Goldsmiths, University of London.

Deborah Timoni

University of Southampton

Citizenship, Governance and Security

I am a researcher with a background in collective intelligence and electrical engineering. Currently pursuing a Ph.D., my work focuses on the diffusion of democratic innovations globally. With a passion for reimagining democratic institutions, my research aims to uncover conditions for the cross-cultural transfer of innovative democratic practices. I actively engage with literature reviews, case studies, and experiments, integrating interdisciplinary approaches for a holistic understanding.

Awa Touray
